The Copan High School Football team suffered probably the most disastrous season in the History of the school, winning none and losing ten. In these ten games the opposition scored 198 points while we were scoring 36. Even so we think Coach Roy Rousey did a very commendable job considering the fact that he had only a sprinkling of veterans returning, two ineligible players and numerous inexperienced freshman and sophmores. The team also was plagued by injuries all through the year. We certainly hope that no other Copan team will ever suffer the misfortunes that befell the team this year.

The Copan High School Basketball team had a somewhat better season than the Copan Football team but only slightly, winning 5 and losing 18. The Copan boys scored 674 points to the oppositions 831 points. The boys had a miserable time of it on the road winning only two games away from home all year, but at home the boys always put on a good show for the fans whether they won or not. The team won the one game that they wanted to win most by beating Sedan in the final game of the year, after being beaten on the Sedan home court by a 17 point margin. One thing for the boys they won the first and last games of the year by good margins, so we started good and ended good regardless of what happened in between.

The Copan High School Girls Basketball team has somewhat improved from the years passed. The girls had a very good season winning 10 games, losing 8, and tying 1. The girls for the first time in six years defeated Wann twice, doubling and tripling the score on them. Next year the prospects for a good team look good for the reason that we do not lose a regular from this years squad.

The 4-H Club is a National Farm Youth Organization sponsored by the State A. and M. College. Its purpose is to develop leaders in the rural boys and girls. Every boy and girl is given an opportunity to lead in some way.

The 4-H in our local school is one of the largest and outstanding of our many school activities. This year we have twenty-six active members, carrying a total of one hundred twenty nine projects.

Each year the club sponsers community projects such as collecting funds for the Jr. Red Cross, and the "March of Dimes". We also collected material and filled eight "Overseas Boxes".

Last year we ended our work by having two National winners, and three state winners, besides earning several hundred dollars in War Bonds.

CLASS PROPHECY

Dear Jack,

I just wanted to tell you of the experiences that I had on my trip this summer and relate to you the news I have of some of the alumni of the class of 1949.

Starting in New York City, I brightened a dull evening by touring the Bowery. While there I ventured into a small theater which featured the Blonde Bomb Shell. Imagine my surprise when the bombshell turned out to be Iva Mae Stephens.

From there I went to Washington D. C. where I found Senator Marion Williams in the midst of a filibuster, the Speech Class certainly made Willy windy.

On I went to Chicago where I visited the Law Firm of Zunigha, Zunigha, Zunigha, and Zunigha (relatives you know), Mr. Zunigha was very busy on the eminent Surgeon, Dr. Proudlove's law suit. It seems as though Dr. Proudlove while performing an appendectomy my mistake cut part of his patient's intestine out, and is being fined $5,000 for damages.

While traveling through Kentucky after leaving Chicago I found the bookie Wilbur Keck trying to make a bet with that great horse owner, horse trader, horse trainer, and horse thief Bud Edwards.

From the Blue Grass state I went to New Orleans, and while visiting Tulane University I saw that famous artist Wilma Keck sketching the athletes in summer training.

While traveling through Texas we read in the paper where the great pianist Frances Phillips is giving a concert in Dallas.

Also in Texas I found Jack Crawford running a chain of Grocery stores it seems Crawford is the only weak link in the chain.

From Texas I went back to my old home state of Oklahoma where Bill Todd is running a close race with Charles Atlas with his body building school.

Also in Oklahoma I found Ava Jo Atkinson, Ava Jo has been married and divorced from the same guy 4 times.

On I went to Colorado where I met the High Society snob Joan Podbreger, who recently has had a nervous breakdown. This was apparently caused by so much worry in High School.

From Colorado I went to California where I went to the Opera and guess who the leading man with the beautiful baritone voice was none other than Tom Hannah.

While in San Francisco I went into a bar for a little refreshment and who should I find working as a barmaid but Mary Lou Garner.

Also in San Francisco I found that Television Expert J. C. Morelan, televising his wife's accordion concert.

On I went to Low Angeles and dropped into Losson Winkler's famous restaurant The Parrot Club and who should be talking loudest, but the famous athlete Puss Mann. Puss plays baseball all summer, basketball all winter, and spends the rest of the time talking about it.

Also in Los Angeles I found Alice Toney and her husband running a Turkish Bath.

We went over to Hollywood where I found that famous movie star Thelma Griffin they say she is another Judy Canova.

I also hear that you have been doing quite well for yourself instructing Ballet Students.

Yours truly,

John Warren

P. S. My new show starring the Rand Sisters shall be a hit.
